PROFILE SUMMARY

Currently a Year 4 student majoring in Information Technology Engineering at the Royal University of Phnom Penh, I have also received a Certificate in UX/UI from IT Step Academy. I am passionate about UX/UI design and always strive to follow industry best practices. With understand knowledge of both front-end and back-end development, I enjoy applying my skills to improve software projects. I am eager to learn, stay updated with the latest technologies, and enhance software methods through practical project work.

PROJECTS EXPERIENCE

Mart Cambodia | UXUI Project |September 2025 -Present

- Developed UX/UI designs using Figma to create a seamless ordering experience for customers, ensuring easy access to available stock.
- Implemented product, category, cart, and favorites management features for efficient e-commerce functionality.
- Designed responsive interfaces optimized for mobile devices.

University Guidance Website | HTML/CSS , JavaScript , Laravel, MySQL, Postman, Figma | Teamwork (member) | Dec 2024 - Jul 2025

- Built a full-stack web application showcasing top universities in Cambodia using Laravel and JavaScript
- Developed user features including accounts, contact forms, ratings, favorites, and feedback submission
- Displayed key university info such as faculties, location majors, graduate paths, and user reviews
- Collaborated in a team using the Prototype Model, Wireframing Prototyping (Figma), tested backend APIs with Postman, and contributed to project report writing
- **Figma for UI/UX prototyping** (Link: Figma Design).
